

TUESDAY, MARCH 15. 1743.

**RECECH** of his Excellency WILLIAM SHIRLEY, Governor and Commander in Chief of His Majesty's Province of the Massachusetts-Bay, to the General Assembly of the said Province, Jan. 15. 1742-3.

of the Council and House of Representatives.

Cannot omit expressing my Satisfaction, before I dismiss you, at the Provision which you have made this Session for answering the Demands of the Possessors of the outstanding Bills of Credit, commonly call'd The First New Tenor Bills, and thereby preserving the Publick Faith, which must

have been irretrievably violated: And tho' it confess'd, that you have not punctually comply'd with the Engagements of former Acts of the General Assembly, for securing the Payment of these Bills, yet the Circumstances of the Treasury, and the want of the Province to discharge them with Silver (according to the Tenor of them, and the Penalties Payment) to which State we have been by some Mistakes in the Proceedings of former Acts; yet this Provision will shew the Disposition of the Court for the just Payment of the Publick Debts, and encourages me to hope, that as our Circumstances are, the same Disposition may carry you on equal Care of the Publick Credit in all other

all the Perplexities under which any Part of Community labours, there is none which has been the Object of my Attention and Concern than the Circumstances of some of the late Directors and of the Land-Bank Scheme, and I should be glad to see by the Engross'd Bill now lying before me, that pass'd both Houses, for putting a final End to them: But besides that, it seems to interfere in Measure with the Act of Parliament lately made pressing this Scheme; it is in itself an Act of an extraordinary and unusual Nature, and which may possibly have its whole Effect before his Majesty can have opportunity of allowing or disallowing it (in both Cases I am forbid by the Royal Instructions to my Consent to any Bill before I have transmitted it to his Majesty, and know his Pleasure thereupon) wherefore I am at Liberty to do with it, is to transmit it to his Majesty, in order to know his Royal Pleasure concerning it; which I shall do by the first Opportunity.

In the mean time, as the prudent Measures taken by this Government for bringing the Debtors Partners to pay in their respective Proportions the Manufactory Bills, in order to have them comply'd, have already had an extraordinary Effect for that purpose, I hope they will still continue to influence such Partners, who have not yet comply'd, to bring their several Quotas of Bills, and also to observe the Obligations and Agreements enter'd into among themselves for defraying the Charges and Expence of the said Scheme, which is one of the Ends sought for by the before-mention'd engross'd Bill. I must upon this Occasion observe, That the Intention which seems to have actuated the Possessors of the Manufactory Bills hitherto in making of their Demands, by confining them generally to the Delinquent Partners, and avoiding to distress those who have paid their just Proportion of those Bills, is a laudable Instance of their Humanity and Regard to Justice; and I am that none will under the Umbrage, and contrary to the Intent of the late Act of Parliament, seek to gratify a private Pique, or a malignant Humour, by the Ruin of particular Persons, which may not be necessary for them to occasion in order to their obtaining Justice to themselves.

For my own Part, as his Majesty's Council have confided with me in an Order for giving Directions to the Attorney-General to prosecute such of the Partners as shall contumaciously stand out in Defiance of the Act of Parliament, and the Orders of the Government, I shall use my Endeavour to enforce it, and have Edge of the Act turn'd against such as shall still persist in their Obstinacy and Contempt of the Law; and I shall have all such as shall shew an Obedience to it, as far as they are able.

Gentlemen, The further Grant made this Session for the Repairs of the Castle William, and the Act for supplying it with well exercis'd and disciplin'd in the Use of the great Artillery, are both Instances of your just Concern and

Regard for the Honour of his Majesty, and the Safety of the People of this Province.

I have only further to add, that in the recess of the Court I shall take due Care of what has been recommended to me by you during this Session, and am now to acknowledge the late Expression of your kind Acceptance of my Endeavours for the Service of the Province, which shall never be wanting to it upon any Occasion wherein I may be capable of serving it.

Council Chamber, Jan. 15. 1742.

W. SHIRLEY.

**NEVER were NERVOUS DISEASES**

PALESY, and PARALYTIC DISORDERS so frequent  
of late they have been, nor have the usual Remedies been  
found adequate to those pernicious Disorders. This  
reasoned a Physician, who employ'd his Thoughts much  
concerning them, to adapt a Medicine, a Sovereign Remedy,  
similar to, and effectual for, the Palsy, and all other  
Complaints now reigning, which after he had experienced  
vast Numbers of Persons of both Sexes, and always  
surprising Success, even so as infallibly to cure by it  
Palsy, and all Paralytick Effects and Nervous Disor-  
ders he permitted it to be made publick for a general Good,  
to those labouring under these miserable Afflictions, and  
know where to meet with a safe and most certain Cure,  
which it accomplishes in so short a Time, and with such  
Ease and Pleasure (a few Drops of it being a Dose, highly  
agreeable to the Palate, and comforting to the Stomach and  
as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates  
prodigious Efficacy to every one, and the Patients soon  
all Numbness, Deadness, and Shaking, or Resolution of  
Nerves, as well as all convulsive, cramp-like, or  
Contractions of them, vanish and return no more; and  
though these Disorders have been of many Years standing,  
whether occasioned by long Illness, fast Living, hard Labour,  
ing, or any other Cause; for it performs all that can  
with'd for in Nervous Cases, creates an Appetite, expels Wind  
rectifies the Digestion, occasions laudable Chyle, assuages  
the Blood and Juices, causes a free and regular Circulation  
'em thro' the Capillary Vessels, revives and increases the  
Spirits, warms, comforts, strengthens, and replenishes the  
Brain and whole Nervous System, hence the Sinews, Tendons,  
Ligaments, and all the enfeebled Parts are invigorated,  
Limbs restored to their pristine Steadiness and Strength, and  
the Palsy and all Paralytick Disorders and Nervous Decays  
suddenly cured by it, to the Admiration of the Patients  
themselves, and all about them.
